SUMMARY INFORMATION FOR PHYSICIANS

No player shall represent Falcon Trail Youth Activities Center until there is on file with the Sports Director or Director, a statement signed by the parents or legal guardian and a practicing physician certifying that he/she has passed an adequate physical examination within the past year; parents or guardian to participate. A participant who has received an adequate physical examination at least once upon entering youth athletics may elect to have a Medical Re-evaluation instead of a physical examination in subsequent years, unless significant injuries or illnesses have occurred in the past year. NOTE: It is strongly recommended by the Colorado Department of Health that individuals participating in athletic events have current tetanus boosters. Tetanus boosters are recommended every 10 years throughout life. Boosters are recommended at the time of major injury if more than five years have elapsed since the last booster.

If significant intervening illnesses and/or injuries have occurred, a more complete physical examination should be conducted. A practicing physician must sign the physical examination form. If a youth athlete has been injured in practice and/or competition, the nature of which required medical attention, the youth athlete should not be permitted to return to practice and/or competition until he/she has received a release from a participating physician.

NOTE: The Falcon Trail Youth Activities Center urges an adequate physical examination to be given when a youth athlete changes levels of competition. i.e., Little League to Junior High, to High School, etc.
