Team Spotlight

We support the development of the whole child, meaning all areas of development are considered interrelated and are equally important. Our program acknowledges that children learn through active, hands-on involvement with their environment, peers and caring adults. Children are valued as individuals, as well as part of a group. Likewise, our program respects and supports the ideals, cultures and values of families in their task of nurturing children. We advocate for children, families and the early childhood professionals within our programs.
